Subject: FOR YOUR URGENT SKIM/REVIEW: Latest draft EPA comment letter for Denver PM hot-spot analysis

Karl,

Attached is the latest version of the Region 8 comment letter for the conformity and NEPA analyses done for the I-70 highway expansion project in Denver. The letter reflects review by SMTPC, OGC, Regional Counsel, and the Region 8 Air and NEPA staff and mid-managers.

Region 8 is meeting with their ADD and NEPA Division leadership about the letter and next steps. For now, let us know if you have any thoughts on the letter. I expect we'll have another version tomorrow, and Laura and I will review the latest draft one more time.

Also, let me know your thoughts on informing Chris, Lee, or Janet. We can put together an update email for you to send tomorrow if you want.

Meg
